New Legal Kits to Product Line

IncSmart adds 3 new legal kits to its product line.

(IncSmart Florida) – IncSmart is happy to announce three (3) new legal kits to its line of Business Binders. In addition to the Corporation and Limited Liability Company binders, we have added Non-Profit Corporation, Professional Limited Liability Companies, and Limited Partnerships.

IncSmart Kit fees are staying the same. The fees are at an already low price of \$80. They will still be ordered after the Secretary of State has guaranteed the name, and delivery will still be by UPS. Kit delivery fees are free when the legal binder is shipped inside America or Canada.

The binders are also getting a material upgrade. The binders now come with Turned Edge. The construction is with a heavier material for longer life, and extra durability. The material is also more environmentally friendly. Each binder is detailed with gold and comes in two (2) colors, burgundy and black.

The kit still includes a three-ring binder with name embossed in gold on the spine, preprinted stocks or member certificates, ten (10) custom printed certificates, and transfer ledger.

IncSmart has been serving companies as their agent for over 20 years. We recently added Puerto Rico to our list of states where Corporations and LLCs need to have agents appointed. Where ever you need an agent, IncSmart is there.
